Cultural history combines the approaches of anthropology and history to look at popular cultural traditions and cultural interpretations of historical experience. It examines the records and narrative descriptions of past matter, encompassing the continuum of events (occurring in succession and leading from the past to the present and even into the future) pertaining to a culture.

Culture-historical archaeology is an archaeological theory that emphasises defining historical societies into distinct ethnic and cultural groupings according to their material culture. It originated in the late nineteenth century as cultural evolutionism began to fall out of favor with many antiquarians and archaeologists.
