a digested index to pdf

Digestion is the breakdown of large insoluble food molecules into small water-soluble food molecules so that they can be absorbed into the watery blood plasma. In certain organisms, these smaller substances are absorbed through the small intestine into the blood stream. Digestion is a form of catabolism that is often divided into two processes based on how food is broken down: mechanical and ...

That was very generous of you to print that piece of literature from the Weston Price foundation. I've done quite a lot of research on this subject on Glutens since I myself have been diagnosed with Gluten sensitivity, and this just adds more understanding to the dilemma to the human suffering caused iotrogenitically via the food industry.
