Spelling Practice Book Grade 6 Harcourt Pdf - harcourt

Subtraction is an arithmetic operation that represents the operation of removing objects from a collection. The result of a subtraction is called a difference. Subtraction is signified by the minus sign ($-$). For example, in the adjacent picture, there are $5 - 2$ apples meaning 5 apples with 2 taken away, which is a total of 3 apples. Therefore, the difference of 5 and 2 is 3, that is, $5 - 2 = 3$.

Beginning and Intermediate Algebra - Cabrillo College

Addition (often signified by the plus symbol "+") is one of the four basic operations of arithmetic; the others are subtraction, multiplication and division. The addition of two whole numbers is the total amount of those values combined. For example, in the adjacent picture, there is a combination of three apples and two apples together, making a total of five apples.
