

alpine tectonics geological society pdf

Strike-slip tectonics is concerned with the structures formed by, and the tectonic processes associated with, zones of lateral displacement within the Earth's crust or lithosphere

Strike-slip tectonics - Wikipedia

Continental drift is the theory that the Earth's continents have moved over geologic time relative to each other, thus appearing to have "drifted" across the ocean bed. The speculation that continents might have 'drifted' was first put forward by Abraham Ortelius in 1596. The concept was independently and more fully developed by Alfred Wegener in 1912, but his theory was rejected by many for ...

Continental drift - Wikipedia

A group of geologists have drawn my attention to the 2010/2013 Geological Society of London's statement on climate change and asked if I could arrange an on-line discussion about it. The lead author of the statements is Dr Colin Summerhayes who has participated as guest blogger and commenter on Energy Matters before. And so I asked if I could reproduce the statements on these pages and ...

The Geological Society of London's Statement on Climate

It is possible that comparison of incompatible element ratios in basalts from terrestrial oceanic tectonic settings with mare basalts from the Moon and to shergottites from Mars may be useful in constraining when plate tectonics began on Earth, since these two bodies are examples of stagnant lid planets.

A planet in transition: The onset of plate tectonics on

Since its emergence in the early 1960s, the theory of plate tectonics has evolved rapidly. Today, it's a theory only in the sense that relativity and quantum mechanics are theories: The testable predictions having been thoroughly confirmed, no one seriously doubts the basic premises at this juncture, but significant challenges and shortfalls remain here and there.

The Earth At Work - cliffshade.com

Below is an overview of the structural geological development of the North Sea I still had. Figures are attached at the end of the article. Comments are very welcome!
