RuleFamily directly connected the business decision shape is called the "Decision Rule Family" Method Notation. Policy Renewal Method Policy Tier Within Bounds Policy Renewal Override The Name of a Rule All labels below the Rule Family name denote condition column headings. Family is the conclusion column heading.

The Decision Model - A Presentation for Business Analysts

Like the Relational Model, The decision model is a technology and methodology independent model. It is a model for logic, not data. Its theoretical foundation includes normalization principles yielding rigor. Business experts use decision modeling to maintain data quality and operational decision logic.

The Decision Model: A Refresher and Recent Advances

Decisions are the core of the Decision Model and Notation standard. Decisions are shown using a simple rectangle that contains the name of the decision. A Decision Requirements Diagram contains one or more Decisions and it is common to create one such diagram for each area of focus on the project.

Decision Modeling with DMN - OMG

A decision method is a formal system, starting with a decision model, that contains at least one action axiom. An action is of the form "IF <this> is true, THEN do <that>". An action axiom tests a
